## AC Series

AC Series shock absorbers are selected for light to medium deceleration tasks where compact body size and reliable damping are required.

## Key Specifications

Item

Specification

Product type

Compact hydraulic buffer

Body size

Small to medium threaded body

Mounting

Threaded installation with lock nuts

Operating temperature

-10 to 80 C typical

Shock absorption

Stable deceleration under repeated cycles

Application

Pick-and-place, slides, stoppers

Common Models

Model

Size / Type

Configuration

Typical Use

AC0806

Compact body

Short travel

Mini automation

AC1210

Medium body

Standard deceleration

Assembly lines

AC1412

Larger body

Higher energy

Material transfer

AC2016

Heavy body

Higher load stop
