## AD Series

AD Series hydraulic buffers are suitable for repeated industrial stopping where stable cushioning and component protection are priorities.

### Key Specifications

Item

Specification

Product type

Industrial hydraulic damper

Body size

Typical M8 to M20 range

Impact direction

Linear stop applications

Operating temperature

-10 to 80 C typical

Installation

Threaded body with simple adjustment

Benefit

Reduces noise, wear, and rebound

Common Models

Model

Size / Type

Configuration

Typical Use

AD0806

Small size

Short stop distance

Light mechanisms

AD1210

Medium size

General damping

Standard machine stops

AD1412

Mid-high energy

Better load absorption

Slides and conveyors

AD2016

Heavy size

Larger kinetic energy

# AD Series Datasheet

Heavy moving parts

Application Notes

Suitable for OEM equipment, industrial automation lines, and replacement demand.

Dimensions, stroke, thread type, voltage, or mounting accessories can be confirmed before quotation.

Bulk order, private label, and export packing support are available upon request.
