CS1-M

CS1-M magnetic switch offers stable cylinder position sensing and is commonly selected for OEM automation equipment and pneumatic actuators.

Key Specifications

Item

Specification

Switch type

Magnetic position switch

Sensing method

Magnetic piston detection

Output type

Reed switch / common two-wire type

Cable length

2 m typical

Use case

Position sensing and machine interlock

Mounting

Compatible with cylinder mounting accessories

Common Models

Model

Size / Type

Configuration

Typical Use

CS1-M

Standard body

General output

Cylinder end sensing

CS1-M-2M

2 m cable

OEM application

Panel wiring use

CS1-M with clamp

Clamp mount

Round cylinders

Retrofit and service

CS1-M slot mount

Slot fit

Guided actuators

Compact automation

Application Notes

Suitable for OEM equipment, industrial automation lines, and replacement demand.

Dimensions, stroke, thread type, voltage, or mounting accessories can be confirmed before quotation.

Bulk order, private label, and export packing support are available upon request.
